Subject: RE: DE Fill Characterization Field Work

Happy Good Friday Everyone,

I want to send a quick update to let you know that we finished the additional fill sampling at Diggings East yesterday. Everything went smoothly and I'm excited to get the results back from these discrete intervals.

Have a great weekend.

Subject: DE Fill Characterization Field Work

Good Afternoon,

I would like to inform you that, **pending Agency approval** of the DE Additional Sampling RFC, we are planning to complete the DE fill characterization field investigation next week beginning April 15th at 8:00am. The field investigations are anticipated to take 3-4 days to complete.

I'll send an update later in the week, and we will hold off until we have approval. Please let me know if you have any questions or concerns.

Thank you for your time,

Mike S. Potts

Subject: RE: Draft Final Northside Tailings/East Buffalo Gulch Area (NST) and Diggings East Stormwater Basin Area (DE) Fill Characterization and Geotechnical Investigation Sampling and Analysis Plan (SAP) Addendum 1

Josh,

The EPA has reviewed AR's *Draft Final Northside Tailings/East Buffalo Gulch Area (NST) and Diggings East Stormwater Basin Area (DE) Fill Characterization and Geotechnical Investigation Sampling and Analysis Plan (SAP) Addendum 1 (dated February 7, 2019)* and has no comments.

Could you please transform this addendum into an RFC and provide a RFC cover page for signatures? Please include a DEQ signature line and have your respected signatures on the RFC before EPA's and DEQ's. Daryl and I will then sign and send back and the RFC/Addendum will be approved.

I would like to follow a similar format to the BG/GG RFCs and if you make this change, these revisions will be similar in format.

Call me if you have any questions.

Thanks,

Nikia Greene
Remedial Project Manager
U.S. EPA, Region 8

Subject: FW: Draft Final Northside Tailings/East Buffalo Gulch Area (NST) and Diggings East Stormwater Basin Area (DE) Fill Characterization and Geotechnical Investigation Sampling and Analysis Plan (SAP) Addendum 1

Good Morning Gentlemen,

The snow is finally starting to melt and the 2019 field season is approaching, so I want to check and see how your review of the NST & DE SAP addendum is coming? Please let us know if you have questions or concerns.

Thank you,

Mike S. Potts

Subject: Draft Final Northside Tailings/East Buffalo Gulch Area (NST) and Diggings East Stormwater Basin Area (DE) Fill Characterization and Geotechnical Investigation Sampling and Analysis Plan (SAP) Addendum 1

Hello. You are on the distribution list to receive an electronic version of the Butte Priority Soils Operable Unit (BPSOU) Draft Final Northside Tailings/East Buffalo Gulch Area (NST) and Diggings East Stormwater Basin Area (DE) Fill Characterization and Geotechnical Investigation Sampling and Analysis Plan (SAP) **Addendum 1**.

To access the document, click the link below. Atlantic Richfield is providing hard copies of the document to the EPA and DEQ, all others receive this email.
